PRINCIPLE

The Middleby Marshall WOW! conveyor series oven utilizes technology that allows the user full control of the airflow in the baking chamber, resulting in optimal results in cooking product. Air flow is modified through the main control, allowing instant results and full control of air movement, time, and temperature settings. The exterior of the oven is cool to the touch, safely giving users cooler working conditions in the immediate area. The WOW! oven is designed to cook an endless amount of food products including pizza, chicken, seafood, sandwiches and more.

ENERGY MANAGEMENT SYSTEM (EMS)

- The PS638 WOW!™ oven features a patented Energy Management System (EMS) that automatically reduces energy consumption. Touch Screen Control can be programmed in one energy saving mode.
- Automatic "energy eye" saves energy when no pizzas are in the oven.
